Subject: CP1/2015

Dear Sir,

We refer to section 2.1 of CP1/2015 with regard to the DAA input in relation to the 5% ceiling on under-recovery.

Given the DAA willingness to consult on this issue and the potential for a price increase if the situation is not addressed, we believe it is in the interest of airlines that the CAR review the formula and enable the overall situation to be reviewed in time.

Yours sincerely

Cathal
