## Project

---

- *Four Main activities:*
  - ***Assess the capital expenditure incentives that are embodied in the existing control***
    - *Balance of incentives between company and users*
  - ***Consider alternatives that could enhance the incentives***
    - *Changes to the regime*
    - *Focus on output metrics*
  - ***Establish whether governance improvements are needed to reinforce incentives***
    - *State-owned companies often face management incentive plans as part of the broader governance structure*
  - ***Consider whether congestion pricing offers useful insights***

## Plan

---

- *Work has commenced*
- *Aim to publish the independent assessment of the existing incentives during October*
- *Hope to publish a brief note on Management Incentive Plans during October or November*
- *Other work will feed into the CAR review process during the next few months*
