3. Mutual Recognition of civilian ATC Licences Issued by Other EU Member States

3.1 Introduction

- 3.1.1 Regulation (EU) 2018/1139 Article 67 ‘Validity and recognition of certificates and declarations of states

1. Certificates issued by the Agency or the national competent authorities, and declarations made by natural and legal persons in accordance with this Regulation and with the delegated and implementing acts adopted on the basis thereof shall be subject exclusively to the rules, conditions and procedures laid down in this Regulation and national administrative requirements and shall be valid and recognised in all Member States, without further requirements or evaluation.

- 3.1.2 In order to achieve one of the main objectives of Regulation (EU) 2018/1139 and its implementing rules, related to the free movement of persons, the certificates (under definition includes licences) issued in accordance with this Regulation and specifically implementing rule Commission Regulation (EU) 2015/340, the following procedure has been laid down in respect of the exchange of air traffic controller licences.

3.1.2 In Ireland the requirements for the exchange of air traffic controller licences are conducted in accordance with ATCO.A.010 'Exchange of licences', ATCO.AR.A.010 'Tasks of the competent authorities' of Commission Regulation (EU) 2015/340 and the procedures hereunder.

3.1.3 The procedures for exchange of a licence are described in 3.2 and 3.3.

3.2 Exchange of Licences issued in another EU member State

3.2.1 Licences shall only be exchanged in cases there is certainty that the licence holder is going to exercise the privileges of the licence in Ireland. {GM1 ATCO.A.010 (a) refers}

3.2.2 For this purpose, and with the intention of preventing unnecessary administrative burden, the CA requires the licence holder, together with the application for exchange, to prove that he/she is going to receive unit training by an approved training organisation that truly permits him/her to exercise the privileges of the licence in Ireland. {GM1 ATCO.A.010 (a) refers}

3.2.3 An application for the exchange of a licence issued in an EU member state shall be accompanied by the following documentation.

1)	A completed licence application form (found on the CA web site or from the Personnel Licensing Office)
2)	Proof of identity (driving licence or passport or National ID)
3)	ATC or Student ATC Licence
4)	A valid Class 3 medical certificate (*see para 3.2.6)

3.2.5 Following the exchange, the previously issued licence shall be returned by the Irish CA to the CA that issued it.

3.2.6 Prior to any exchange of licence being undertaken, the individual licence holder shall contact the CA medical department to facilitate the exchange of medical records between the member state that issued the medical certificate and the Irish medical department. Past experience has shown that this can take months and therefore should be done at the earliest opportunity in the exchange process to avoid any undue delays. An exchange of licence cannot be undertaken until appropriate medical records and an acceptable report have been received from previous member state's licencing authority.

3.3 Grant of a unit endorsement on a civilian Air Traffic Controller Licence

5. Handling of an air traffic controller licence obtained in other jurisdictions i.e. Non-European Member States or issued by a military authority.

5.1 Introduction

- 5.1.1 The CA has no knowledge of the ATC training syllabi of courses undertaken in other non-European member States, or by Military organisations and how these compare with Commission Regulation (EU) 2015/340 Training Content. As a result, the CA is unable to recognise the ATC training undertaken in non-EU Member States or by Military organisations.
- 5.1.2 Individuals who hold an air traffic controller licence from a non-EU Member State or military authority will be required to successfully complete initial training in its entirety to be able to apply for a student air traffic controller licence or follow the steps outlined hereafter at 5.2 for an alternative means of compliance.

5.2. Alternative means of compliance

- 5.2.1 *An alternative means of compliance may be used to establish compliance with the implementing rules (ATCO.AR.A.015 (b) refers).*
- 5.2.2 To do so organisations and/or persons must demonstrate the establishment of compliance equal to or exceeding the requirements of Commission Regulation (EU) 2018/1139 and its implementing rules.
- 5.2.3 *The competent authority shall evaluate all alternative means of compliance proposed by an organisation or person in accordance with ATCO.OR.B.005 by analysing the documentation provided and, if considered necessary, conducting an inspection of the organisation.*

When the competent authority finds that the alternative means of compliance are in accordance with the implementing rules, it shall without undue delay:

- (1) notify the applicant that the alternative means of compliance may be implemented and, if applicable, amend the approval or certificate of the applicant accordingly;*
 - (2) notify the Agency of their content, including copies of all relevant documentation; and*
 - (3) inform other Member States about alternative means of compliance that were accepted. (ATCO.AR.A.015 (d) refers).*
- 5.2.4 Before any application or submission is made to the CA, initial consultation shall take place between the CA and organisations and/ or persons to agree the submission requirements and timelines as well as costs. The cost of the CA consultations, evaluations, potential audits and other auxiliary tasks, will be borne by the applicant and payment in full or part may be required prior to any work being undertaken by the CA.

5.2.5 The duration for conducting the full review and audits necessary will depend upon various factors (including SRD resource, maturity of documentation, the correction of non-conformities, formal requests being made and receipt of documentation from foreign organisations, verification of information etc.) and will therefore be a subjective estimate at the time of initial consultation. Depending on the maturity and compliance of the individual submissions the duration of the review process should take no longer than 3 months, but other unforeseen factors may arise, so applicants should be aware that the process could take up to 6 months.
