NOTICE OF A CHARGE OVER AN AIRCRAFT ON THE IRISH CIVIL REGISTER

The Irish Aviation Authority, in pursuance of Article 19 of the Irish Aviation Authority (Nationality and Registration of Aircraft) Order, 2015 (S.I. No. 107 of 2015), (hereinafter referred to as “the Order”), hereby directs as follows: -

For the purpose of noting particulars related to any charge attaching to an aircraft on the Irish Civil Register, including the existence of certain mortgages or liens, the Authority may include reference to the existence of a charge against an aircraft on the Irish Civil Register.

This process does not apply to an aircraft on the Irish Civil Register which is subject to Article XIII of the protocol to the Cape Town Convention and provides for the irrevocable delegation of authority to deregister aircraft (IDERA) by the registered owner to a third party.

1) In order to note a charge on the Irish Civil Register, the registered owner or applicant for registration of an aircraft shall:

- a. Submit Form AWSD.F.309A, attached as schedule 1 to this Direction; and
- b. Pay the appropriate fee issued in accordance with Section 44 of the Irish Aviation Authority Act 1993.

2) Upon receipt of satisfactory evidence, submitted in accordance with Form AWSD.F.309B attached as schedule 2 to this Direction, the Authority may enter on the Register a memorandum of satisfaction, that the aircraft has been released from the charge.

3) Where the satisfaction or release has not been signed by, or on behalf of, the lender of charge holder, a memorandum of satisfaction referred to in Paragraph 2 shall not be entered on the Irish Civil Register until notice is given to the person who, for the time being, is noted as being the person entitled to such charge or to a judgment creditor, as the case may be.

**Aviation Regulator / CEO Designate
Irish Aviation Authority**

Explanatory Memorandum

The majority of charges and securities registered against aircraft are created under the provisions of The Convention on International Interests in Mobile Equipment, and the associated Protocol on Matters Specific to Aircraft Equipment, which were concluded in Cape Town on 16 November 2001.

The primary aim of the Convention and the Protocol is to resolve the problem of obtaining certain and opposable rights to high-value aviation assets, namely airframes, aircraft engines and helicopters which, by their nature, have no fixed location.

Article XIII of the Protocol provides for the irrevocable delegation of authority to deregister aircraft (IDERA), which establishes a mechanism for registering financial interests and charges against aircraft. However, the Cape Town convention does not apply to certain aircraft depending on their category and weight, and it is not possible to register an IDERA against them.

This Direction provides a mechanism to note financial interests and charges on the Irish Civil Register of aircraft established under the Irish Aviation Authority (Nationality and Registration of Aircraft) Order, 2015.
