

## **IAA Portal/Accessing the NCASP**

Only the designated security manager of an approved regulated entity can be given access to the NCASP.

NCASP access will not be given as a reference for preparing a security programme.

In order to receive the latest version of the NCASP, the security manager should email the AvSec admin team at [avsec@iaa.ie](mailto:avsec@iaa.ie) for access to the IAA Portal where the NCASP can be downloaded.

The username and password to the portal cannot be changed. The password will be changed by the IAA periodically. Please check your emails for updates if you cannot access the site.

Only the chapters pertaining to the appropriate entity will be available on the Portal.
