**Dail Question No: 676**

To ask the Minister for Transport whether any artificial intelligence tools or systems are currently being used within his Department or in agencies under its remit; the purposes for which these tools are being used; whether any departmental guidance or governance structures have been developed to support their responsible use; and if he will make a statement on the matter.

Deputy Ó Cearúil,

All IAA staff have access to CoPilot Chat with a limited number of staff with full CoPilot licences. We do not currently use AI for any ML purposes or automated decision making. The IAA has an AI Usage Policy, and all staff are provided Cyber Security Training which provides awareness of best practice. The IAA are investigating the possible use of improving process workflows through automation using AI tools.

Regards,

**Alec Elliott**
